

CLAT Possible

The 3-Day CLAT Rank Roadmap

3-Day Live Webinar Landing Page · Final Copy v4 · Editable Design Handoff

THE BRIEF

Asset: Registration page for the 3-day live CLAT masterclass (first funnel). Dates: 28, 29 & 30 June 2026, 11:00 AM IST, 2 hours each day.

The one next click: Book My Seat, ₹49 (low-ticket / impulse config).

The core mechanism: Days 1 and 2 teach the real CLAT foundations and ranker strategies. Day 3 is the Diagnostic Rank Predictor test, which works precisely because the student has just learned the fundamentals, so it can fairly project a true beginner's potential rank and hand them a custom plan.

The enemy: Competitors offer a free demo class, one lecture built to sell a 1 to 2 lakh course. We give 3 days of real teaching plus the student's own projected rank and roadmap, before asking for anything.

Audience: Leads first-timer (Class 11 & 12 just starting), and pulls in equally the stuck student, the dropper, the first-year reattempter, and the parent.

Voice: CLAT Possible's warm, aspirational, parent-inclusive house style, with a clear, low-pressure, impulse-friendly spine. Student dream on top, parent reassurance lower down.

Note: Section-intent tags and all [CONFIRM] markers are internal, not page copy. No em dashes used anywhere, per house standard.

- **For:** Class 11 & 12 students, droppers, and first-year students planning to reattempt CLAT 2027 & 2028
- **Language:** English
- ~~₹[499]~~ → ₹49 until [deadline] · Money-back guarantee

[3] Do You Dream of a Top NLU, But...

Do You Dream of a Seat in a Top NLU, But...

- Confused by the syllabus and exam pattern, and not sure where to even begin?
- Worried about balancing school or board studies with serious CLAT prep?
- Overwhelmed by the competition, and secretly unsure if an NLU is realistic for you?
- Grinding mock after mock while the score refuses to move, and you cannot see why?
- Demotivated by low mock scores, with results day still months away?

- Lost in the noise of which coaching, materials, and test series to actually trust?

If even one of these is you, read the next line carefully.

[4] The Real Problem

Here's the real problem the moment you start CLAT prep.

You have decided you want a top NLU. The trouble is, the moment you start looking, you are flooded. A huge syllabus, dozens of coaching options, endless books and test series, and everyone insisting they are the right choice.

And almost all of them offer you the same thing: a free demo class. One sample lecture, designed to get you to sign up for a course that costs one to two lakh rupees.

So you are expected to commit that kind of money before you know the two things that actually matter: whether a top NLU is realistic for you, and what your plan should even be. That is the wrong order. You should not have to gamble lakhs just to find out where you stand.

These 3 days flip it. First, you actually learn how CLAT is cracked, from the CLAT Possible team that has produced top rankers, and from rankers themselves. Then, once you have that foundation, you take our Diagnostic Rank Predictor test on Day 3.

Because you take it after learning the fundamentals, not cold, it can fairly project the rank you are capable of, even if this is your very first week of preparation. And it hands you a customized plan built around your result.

Everyone else gives you a demo class to sell you a course. We give you 3 days of real teaching, strategies, your own projected rank, and a plan built for you.

[5] Instead, Imagine This

- You have a crystal-clear roadmap that runs from your real rank today to your target NLU.
- You are using the study approach and test strategy that toppers actually use, not guesswork.
- You feel genuinely confident, because you know your number and exactly what moves it.
- You have finally cracked time management, and your mock scores start climbing.
- Your parents feel proud and fully on board, because they saw the plan before paying a single rupee.

We make this real at CLAT Possible. In 3 days, you start your journey with a map instead of a guess.

[6] Exactly What Happens Across the 3 Days

Live on Zoom, 11:00 AM IST, 2 hours each day

- **Day 1, 28 June: The foundations.** How CLAT actually works, the real scoring map, and how top rankers approach the paper, taught live by the CLAT Possible team. By the end of Day 1 you finally understand what cracking CLAT really takes.
- **Day 2, 29 June: The winning strategies.** Section by section (legal reasoning, English, GK and current affairs, logical reasoning, quant), the exact strategies that produce ranks, plus real CLAT rankers live, sharing what they did differently. *Parents join on Day 2, because the plan only holds when the whole family is behind it.*
- **Day 3, 30 June: Your rank and your plan.** Now that you have the foundations and the strategies, you take the Diagnostic Rank Predictor test. You walk out with your projected CLAT rank, accurate even if you started from zero this week, and a customized roadmap to your target NLU. You came in unsure. You leave with a number and a plan.

[7] What You Walk Away With

- Three full days of real CLAT teaching from the team behind some of India's top rankers, not a single sample lecture.
- Live strategy sessions with actual CLAT rankers, on exactly what they did differently.
- Your projected CLAT rank from the Diagnostic Rank Predictor, accurate even if you started from scratch this week.
- A personalised roadmap from that rank to your target NLU.
- The common mistakes that quietly cost aspirants their rank, and how to avoid them.

- A clear plan for balancing academics and CLAT prep without burning out.
- The clarity to decide your next step on your own terms, with zero pressure to buy anything.

[8] The Champions Wall

Students who stopped guessing

"[Real student quote. Target voice: I thought NLU was out of my league. The day I saw my actual rank and what was missing, everything changed.]" — [Name], AIR [CONFIRM] / [City]

"[Real parent quote. Target voice: For the first time, someone showed us the plan before asking for a single rupee.]" — [Parent name], parent of [student], [City]

"[Real ranker quote, ideally on video. Target voice: They did not make me study more. They made me study the right section.]" — [Ranker name], AIR [CONFIRM], CLAT [year]

The record behind the room

- **20,000+** students trained
- **15+ years** of proven CLAT results
- Toppers across the rank list, from AIR 1 onward [*CONFIRM which AIRs are ours to feature*]
- Centres in Lucknow, New Delhi, Chandigarh, Kanpur, Noida, Mumbai, Patna and Raipur

Internal honesty note (NOT for page): every quote must be a real, consented student, parent, or ranker. Every rank and stat locks to the latest verified CLAT result before publish. Confirm the Champions Wall AIRs are CLAT Possible's own students. If they are, feature them as proof. If they are aspirational, keep the diagnostic as the lead and drop the AIR-1 framing. No borrowed claims, no invented numbers.

[9] Meet Your Host

Taught by the people who will actually teach your child

Dr. Surabhi Modi Sahai is the MD & CEO of CLAT Possible and its English & CR mentor. A Hindu College alumna, she built the academic backbone of CLAT Possible and is a trusted mentor and advisor to thousands of students. She was nominated for the Fulbright (FLTA) fellowship to UC Davis and holds a Ph.D. from the University of Lucknow. The founder who still mentors the class herself, not a name rented to a banner.

Real CLAT rankers join live across Days 1 and 2, sharing the strategies that actually got them their ranks, and answering the one question every aspirant has: *what did you do differently?*

[10] This Masterclass Is Built for You If...

- **You are in Class 11 or 12 and just starting.** You want prep that actually gets you there, and an honest answer on whether a top NLU is realistic for you. Even if you have never opened a CLAT book, you still walk out with an accurate projected rank and a plan, because you learn the foundations and strategies first, then take the test.
- **You are already preparing, and stuck (in school or a dropper).** You have put in the hours and the score will not move, and you cannot see why. Even if you have fallen behind, you leave knowing exactly how far the gap is, and precisely what closes it.
- **You are a first-year college student planning to reattempt.** You want a sharper, smarter strategy this time, built on your real current rank, not last year's regret.
- **You are a parent who wants clarity.** You want to know how to support your child, what good prep actually looks like, and what the investment buys, before you commit.

Do not let confusion or fear hold you back. See your number, get your roadmap, and take the first real step toward your NLU dream.

[12] FAQ

Is it live or recorded?

Fully live, all 3 days, with a dedicated Q&A. Miss a day and you get a 24-hour replay. [CONFIRM replay policy.]

How do I join?

After you register, we send your private Zoom link by email and WhatsApp, with reminders before each day. You can join from your phone or laptop.

I have never prepared for CLAT. How can it predict my rank?

Because you do not take the test cold. Across Days 1 and 2 you learn the foundations and the exact strategies that produce ranks. The Day 3 test measures what you can do once you understand how CLAT actually works, which is why it can fairly project your potential even as a complete beginner, and build a plan around it.

How is this different from the free demo classes everyone offers?

A demo class is one lecture built to sell you a one to two lakh course. This is 3 full days of real teaching and live ranker strategies, and you leave with your own projected rank and a customized plan, before anyone asks you to buy anything.

I am only in Class 11. Too early?

It is the best time. Learn how CLAT works now, see what you are capable of, and start with a plan instead of guesswork.

I have already prepared a lot. Is there anything new for me?

Yes. Stuck students are almost always losing ranks in one or two areas they cannot see. The strategy sessions and your Day 3 result pinpoint exactly where.

Why is it only ₹49?

Because it is the start of a relationship, not the whole product. We would rather you see how we teach, and get a real result in your hands, than take our word for it.

Do I have to buy a course after?

No. You leave with your rank and your roadmap regardless. What you do next is entirely your call.

Will real CLAT rankers really be there?

Yes, live across Days 1 and 2, sharing their actual strategies. Not recorded clips.

Will it be in English or Hindi?

Majorly English.

[13] Final CTA + Footer

Somewhere a student with your exact marks is about to take the NLU seat you wanted, for no reason except they knew their number, and you didn't.

You can know yours in 3 days. Or keep guessing until results day.
